LIZZA FOODS & ENGINEERING MACHINE DIVISION

Online Instant Noodles Plant

About Us

Lizza Consumer Goods Pvt. Ltd. is a Company promoted by group of professionals with excellent technological, financial and operational experience in the field of fast moving consumer products, special in processed food industry. Lizza is one of the leading providers of a wide range of machines/equipment in packed food industry representing some of the finest in global technology. The Company is engaged in the engineering, design, manufacture and marketing of a comprehensive range of complete production line for processed food industry for the Indian market, supported by an integrated after-sales support and service. Lizza's products are synonymous with reliability, productivity and efficiency.

We makes effective use of the latest technology in our manufacturing process in order to make quality machines complying to international standards. These machines are manufactured to satisfy the diverse and specific needs of clients. The range of choices that we offer, help our clients to make their choice and select machine that would suit their business best need and this has enabled to garner a vast clientele. We are leading manufacture of online (fully-automatic/semi-automatic) instant noodles & chips plant.

Timely delivery and quick after-sales-services are our strengths and we owe this precision due to dedicated and qualified workforce and seamless processing of orders. Right from designing of the products till the final execution, we offer the best of our capabilities and ensure that we rise to the expectation of all our customers. It is our endeavors to manufacture and supply sophisticated machines, which ensure a high rate of operational accuracy.

Our Core Values

The core values of the company are integrity, transparency, accountability, leadership, teamwork, knowledge and customer orientation.

Our Vision

Lizza Consumer Goods Pvt. Ltd. is committed to augment growth in Indian growth story in line with "Make in India" initiatives of govt. of India. We simply believes in three things serve, spread and shine. Serve- the masses, the middle and upper-middle class that reside in every corner of India. Spread - Our basket of products throughout the entire globe. Shine - pump every activity with enthusiasm, passion, pride and churn a total turnover of Rs. 200-250 Crores within March 2025.

Our Product Offerings Under Engineering & Machine Division:

Deep Fat Fryer >>>

We are recognized as one of the prominent manufacturers, retailers and suppliers of Deep Fat Fryer, which are strongly built from optimum grade steel and ensure intense quality. Moreover, our presented collection finds wide application in the activities corresponding food preparation. Highly cherished amongst our respected clients, our products ensure long lasting nature. As per the clients' demand, we are also involved in manufacturing tailor-made product range that certainly satisfies their appropriate requirement

Rotary Oil Filter >>>

We are eminent manufacturers and suppliers of first-rate quality Oil Filter. This equipment is extensively used to remove contaminants from Edible oil. This is casted from rust resistant galvanized frames and is highly popular among clients owing to its dimensionally accuracy, durability, corrosive resistant nature, rugged construction and durable finish standards. In order to meet the set quality standards, offered oil filter is manufactured using optimal quality material and advanced technology.

Fryums Online

(Fully-Automatic/Semi-Automatic Machine)

FEATURES:

- Reduced Human effort
- Indirect Heating through boiler
- Hood lifting up & down for clearing accessibilities

SPECIFICATIONS:

Production Capacity	: 300 to 1000 kg/hr
Dimension	: 15x15 ft
Fuel	: Diesel, Wood
Material used in equipment	: S.S (304)

We offer complete line of fryers for various products like Namkeen, Bhujia, Gathiya, Daals, Fryers & Kurkure. These fryer is based on edible oil circulation systems.

Kurkure Online

(Fully-Automatic/Semi-Automatic Machine)

We offer complete production line to produce kurkure in different shapes.

FEATURES:

- Production of all shapes of Kurkure.
- Dedicated flavoring system & unique design.
- Low labour consumption.

SPECIFICATIONS:

Production Capacity	: 300 to 1000 kg/hr
Dimension	: 50x15 ft
Fuel	: Diesel, Wood
Material used in equipment	: S.S (304)

Potato Chips Online

(Fully-Automatic/Semi-Automatic Machine)

FEATURES:

- Low fuel consumption
- Minimum Labour effort requirement
- Improved productivity with excellent product quality
- Low edible oil take up

SPECIFICATIONS:

Production Capacity	: 200, 300, 500 kg/hr
Dimension	: 25x25 ft
Fue1	: Diesel, Wood
Material used in equipment	: S.S (304)

We offer complete production line for Potato Chips including fully automatic & semi-automatic line with different capabilities.

Heat Exchangers >>>

Our heat exchangers transfer heat as efficiently as possible. This transfer of heat can take either the form of absorption or dissipation of heat. When there is a waste of energy or heat stream that is not recovered, our heat exchanger can convert such a heat stream into something that can be effectively used.

Heat exchangers are found in everyday equipment from boilers, furnaces, refrigerators to air conditioning systems. Some of the features are:

- Durability
- Low maintenance
- Unique designs
- High rates of heat transfer
- Useful both commercially and for residential purposes
- High efficiency machines

Flavour Mixer >>>

We are recognized as eminent manufacturer and supplier of flavour application system used in the food processing industry for coating of various flavours on different type of snacks like nuts, namkeen, chips, and other snacks. For manufacturing of this product, we utilize high-grade raw material and sophisticated technology. Our offered flavour application system is inspected on various quality checks in order to deliver defect free products. Our offered range of flavour application system comes with exquisite features such as optimal performance, durability, sturdy construction and balanced operation. Our entire range of feeding system is highly acclaimed owing its robust design and long lasting functional life.

- Easy to maintain
- Easy to operate
- Even coating of flavours
- Durable, reliable and long life

Coating Pan >>>

Specially designed to apply seasoning and coating to fried and roasted products in uniform manner. Complete material of construction is SS 304. The coating pan is available in different sizes on basis of pan diameter and mixing capacity per batch.

Oil Tank >>>

Our commitment to fulfill different needs of food processing industries motivates us to manufacture superior quality Oil Tank. Our range of oil tank is generally used in snacks and confectionery lines for storing oil. We provide range of tank in several sizes and capacities as per the client's stipulations. For the fabrication of this range of Oil Tank, we use best grade raw material and advanced machine to produce end range in compliance with set industry guideline. Further, our offered oil tank is completely hygienic and highly acknowledged by clients for its splendid finish, accuracy, easy cleaning, extended durability and so on features. Due to our in-depth knowledge and market understanding, we have been able to offer our clients a widely reckoned Oil Tank. It is manufactured following set parameters of the industry. Thus, our offered Oil Tank is massively applauded for its minimal maintenance requirements, seamless quality, longer functional life, simple operation, excellent output, low energy consumption, and many more.

Bucket Elevator >>>

A bucket elevator can elevate a variety of bulk materials from light to heavy and from fine to large lumps. The bucket elevator is the enabling technology that permitted the construction of grain elevators. A diverter at the top of the elevator allows the grain to be sent to the chosen bin. Nearly all centrifugal discharge elevators have spaced buckets with rounded bottoms. They pick up their load from a boot, a pit, or a pile of material at the foot pulley

Kurkure Extruder >>>

In line with clients' variegated requirements, we bring forth a distinguished collection of Kurkure Extruder Machine. The offer machines are manufactured using optimum quality components and advanced technology in conformance with defined quality standards. These machines are highly acknowledged among our clients for their precise design, low maintenance cost, easy installation and durability. Apart from this, these machines are available in various technical specification as per the requirement of our clients.

Z Type Conveyor >>>

We are highly engaged in offering a premium quality range of Z type Conveyor. Z Conveyor is checked on various quality characteristics so as to ensure that only best quality is delivered at client's specified location. This product is designed using optimum quality material at our state-of-art manufacturing unit. Offered range is available with professionals in plethora of sizes, design and specifications. This product is widely appreciated among clients owing to perfect finish and stylish quality approved. Offered range is acclaimed variegated clientele.

FEATURES

- Superior grade raw material
- Power operated
- Reduce human efforts
- Built with the use of best technology

Puff Extruder >>>

These machines are highly acknowledged among our clients for their precise design, low maintenance cost, easy installation and durability. Apart from this, these machines are available in various technical specification as per the requirement of our clients.

Belt Conveyor >>>

Available in horizontal and inclined type, our belt conveyors are extensively used for bag carrying, carton carrying from one end to another, picking and sorting component assemblies, packaging inspection, filling wrapping and labeling.

They are manufactured using quality raw materials. Some of the features of our belt conveyors are:

- Robust construction
- Energy efficient
- Heavy load carrying capacity
- Customized
- Durable
- Corrosion resistant
- High Demand

Wire Mesh Belt Conveyor >>>

From the day of our inception, we are engaged in manufacturing, supplying and exporting a wide range of Wire Mesh Belt Conveyor. We develop all our products using premium quality raw material and latest technology to ensure that finished products meets with international quality standards & norms. Depending on loads and installation, Cooling & Drying Conveyors are designed to interface with existing conveyor systems and are custom engineered from standard components

Pouch Conveyor >>>

We provided best quality range of Pouch conveyor as per shape and size of different variety as per client requirement and satisfaction of their demand.

Flow Wrap Packaging Machine >>>

We provided best quality range of flow wrap packaging machine as per shape and size of different variety as per client requirement and satisfaction of their demand.

Multi-head Packing Machine >>>

With the extensive knowledge and experience in this respective domain we are engaged in offering high quality Ten head Packing Machine that is used for packaging chips in different industries. We use optimum quality components and modern technology while designing this packing machine. The offered packing machine is widely praised by the clients for its quality features. Moreover, we offer this packing machine to our customers in diversified sizes and designs.

Features:

- Compact design
- Corrosion resistance
- Easy to operate

Pasta Manufacturing Machine >>>

This pasta machine is designed to produce “Nests” paste products with the capacity of 70 kg/hour, and short-cut pasta products with the capacity up to 150 kg/hour depended on the product type. Capacity is based on type of products

- Process automation
- Pneumo-Electronic system used for raw material dosing
- Vacuum kneading
- Standalone hydraulic system which monitors water flow and temperature of water depending on its function
- Automatic forming machine

- Pasta steaming unit*
- Automated drying section
- Small size

*Can be delivered as an additional option

In the design and manufacture of the proposed equipment we use modern materials and components, as well as cutting-edge technology in accordance with the relevant international requirements

Fryums Manufacturing Machine >>>

Lizza Consumer Goods Pvt. Ltd. is one of the well-known manufacturer, exporter, trader and supplier of an inclusive assortment of Fryums Manufacturing Machines. All our machines are fictitious using supreme quality machinery procured from the authentic and reliable vendors of the market. These machines are accessible in various technical specifications as per the needs of the clients.

Features

Machine Type	Automatic, Semi-	Automatic, Manual
Capacity	250kg/hr	

Pasta/Macaroni/Vermiceilli Manufacturers Machine >>>

Features

Production Capacity 200 kg/h
Main Motor 15 Hp
Automatic Grade
MOC Stainless Steel
Along with 3 Dies

Soya Bari Manufacturing Machines >>>

Equipments are made of stainless steel and the screw is made of alloy steel and special craft, which guarantee the using time longer.

Features

- Fibration - sheets or longitudinal
- Surface appearance - smooth, rough, shiny, matte, even or marbled
- Color - light (chicken or tuna) or dark (beef)
- Texture - consistent, firm, soft or elastic
- Flavor - many delicious combinations are available, including ethnic varieties
- Product size- nuggets, patties, portions, slices, cubes, flakes, crumbs and more
- Optimum hygiene

Collar Type Packing Machine >>>

We take pleasure in introducing ourselves as leading firm by offering Collar Type Packing Machine.

FEATURES

Pouch Capacity	50-200 grams
Capacity (pouch per hour)	500-1000
Pouch Length	6"-8"
Machine Type	Automatic
Machine Power	1-2 HP
Frequency(hertz)	50-60 Hz
Driven Type	Penumatic
Sealing Type	Center Seal
Power Consumption	220 V

Soap Making Machine >>>

Relying on our expertise in this domain, we are into offering Soap Making Machine.

Specification

Capacity	300kg/Hour
Power Consumption	30kw
Voltage	220V
Material	Mild Steel
Motor	5HP

Popcorn Making Machine >>>

Feature

Automation Grade : Automatic
Production Capacity (grams per batch) : 200.0
Power Source : Electric
Voltage : 120 V
Frequency : 50 Hz
Phase : 1

Oil Extractor Machine/Hydro >>>

Advanced technology with digital temperature controller and compact attractive design. This is an extra ordinary small machine which helps to improve the health and wealth of this human generation. This is a unique advanced technology machine and can change market scenario in a big way. Multi functional home oil machine extract oil from peanuts, coconut, sesame, soybean, walnuts, sunflowers seeds, vegetable seeds, flax seeds, almond, castor seeds, mustard seeds and so on.

Feature

Capacity : 4-8 kg/hr (According To The Material)
Motor power : 600w
Weight : 15 kg
Material : 304 food grade stainless steel

Vertical Mixer Machine >>>

Conical Mixer Machine >>>

Detergent Powder Machine >>>

This Detergent Powder Making Machine has been used only 304 grade steel as our in Kanpur comprising nothing used this grade only used 202 steel and our company steel testing facility as been available also.

Specification

Power Source	Electricity
Phase	Single Phase And Also Available in 3 Phase
Material	Mild Steel and Stainless Steel
Surface Finish	Color Coated
Frequency	50 Hz
